of women and men

WHY?

In **2007 and 2017**, the Institute for Equality of Women and Men organised a large-scale survey on the living situation and experiences of discrimination of transgender and/or gender non-binary people in Belgium.

With this **third national study**, the Institute and the *Transgender Infopunt* want to find out where we are in the meantime and where we still need to make adjustments.

Your participation is very important! After all, based on the survey, policy recommendations will be formulated to improve the situation of transgender and gender non-binary people in Belgium!

You can complete the anonymous questionnaire in Dutch, English, French or German. It takes about 45 minutes to complete the questionnaire. You can also complete part of the questionnaire, save it and continue later.

This study was approved by the Medical Ethics Committee of UZ Gent.

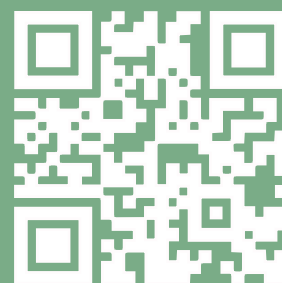

WHO?

The survey targets anyone who identifies as **transgender and/or gender non-binary, is at least 15 years old and lives in Belgium.**

By transgender and/or gender non-binary, we mean anyone who identifies as transgender, trans man, trans woman, gender non-binary, genderfluid, agender, bigender, polygender, person doing cross-dressing/transvestism, or other related terms people use to describe themselves. Those who are still questioning their gender identity can also participate.

If you recognise yourself in the description, your input is immensely valuable to us!
